EXPERIENCE

Food & Agriculture Organization of the United Nations (FAO) — Rome, Italy

Financial Analyst | Jun 2024 – Present

- Monitored KPIs and automated SQL/PBI reporting for a \$1.2B biennial portfolio, improving decision speed for investment allocations.
- Built SQL pipelines + scheduled reports; reduced reporting errors by ~70% and monthly cycle time, improving plan-vs-actual visibility.
- Created an early-warning “expected spend” metric (benchmarking similar divisions) to flag deviations and trigger corrective actions.
- Translated leadership questions into measurable KPIs and dashboard views; presented recommendations to senior stakeholders.

United Nations Industrial Development Organization (UNIDO) — Vienna, Austria

Evaluation Research Assistant, SwitchMed II (EU Programme) | Mar 2024 – May 2024

- Integrated multi-country CRM/digital datasets; produced customer/beneficiary profiles and opportunity maps to guide targeting.
- Built 6+ interactive Power BI dashboards; standardized KPI definitions and reporting cycles across stakeholders.
- Designed research instruments to ensure comparable data for funnel metrics and campaign effectiveness.

Data Evaluation Intern | Sep 2023 – Feb 2024

- Built **6+ interactive Power BI dashboards** tracking KPIs and milestones for internal/external stakeholders.
- Supported end-to-end evaluation (design, quant/qual collection, analysis, reporting) for **two** strategic programmes; maintained SDG-aligned metrics.
- Assisted in bi-annual work-plan preparation leveraging budget and project indicators; standardized KPI definitions and reporting cycles.

International Captain Foods, Captain Gravy and Juicewale — Pune, India

Logistics & Sales Executive (with Marketing & Analytics scope) | May 2021 – Feb 2024

- Owned procurement-to-sale logistics and commercial operations; collaborated with Amazon/marketplace vendors and social media marketing.
- Built a CRM-based lead-scoring/propensity model; prioritized outreach and optimized call scheduling → **+23% sales**.
- Analyzed campaign and pipeline performance; reallocated spend to higher-ROI segments and improved conversion readiness.
- Developed a LangChain agent surfacing client history & talking points before calls, improving rep productivity and close likelihood.
